**S**apientes omnes, verget ac sanctæ religionis sectatores, cum se totos ad diuinis celebrandis honoribus, Deique maximè seruatiuè bene animati consilere, contentis ac spretis omnibus tam publicis quàm priuatis actionibus, quæ ipsorum animos facile ad terrena & fragilia reuocare poterant, quicquid temporis & loci diuinis supererat, id omne seruatiuè noui testamenti & euangelicæ parabolarum secretis dedere, se quidè exultantes multo melius & animæ salubrius consilere quàm ita facerent, ipsi aut quæritatis honoribus, aut opibus per omne nefas parandis, aut ad obtinendam veneri & palato, se temere & in suis ipsorum perditione ut deum, ac cecurritibus oculis inspicissent, eos aut nemo est qui dubiet recte & sapienter egisse, si inania, fugacia & terrena bona, pro optimis, perpetuis & celestibus commutarunt, Ac vidi ego ipse multos, quo melius & commodius ea facere possent, patrimonium omne quod satis amplum habebat, ac familiares fortunas abiecerit, cognoscetes videlicet non posse se duobus dominis recte & fideliter inservire, quæ in finem, quoue in proposito cum vitæ ad supremum vitæ spiritum honeste, ac sancte vitæ agere persisterint, eos profecto credendum est ad celestem sedem conuolasse, ubi beati sempiterno quod fruuntur. Imitatores enim verborum & operum suorum diligit, & cõdigno afficit premio summus ille stelliferi coeli & vniuersæ naturæ opifex & regnator altissimus, Horum ego exprolo & laetis admonitus, me ab incunte ætate, & ad nostri saluatoris seruitiũ, & hæc sanctissimam religionem consulo cõsuli, ibique precipue studiose atque enixe operam dedi, ut quicquid in ipsius religionis ingressu meam spõte promiserat, id oè diligenter summaque cõstantia præstare. Scit aut in primis dñs nostrorum cordium scrutator, quænam ego pro carnis meæ fragilitate, mûdanis & noxijs irritamentis reluctari & obistere cõtenderim. Delectauit me summo opere musices studiũ, eius videlicet quæ hymnos canere, deũque ex cordis intimo sublimi & modulata voce collaudare docet, Necquæ huius discipline partem longe ab hac diuersam & inanem admodum, quæ voluptuosas & lasciuas plerumque captiones tradit, ac imbecilles hominum aĩos, ad oè libidinis et turpitudinis genus paulatim deducit, veluti infames scopulos, ab cibis, ac p̃sertim a religiosis & sacerdotibus euicandam censeo, Ego igit in hac de qua loquor sanctissime sciẽtiæ parte diu multumque versatus, vidi tandem negligentia potius quæ imperitia, ab huius sciẽtiæ cupidis plura desiderari, quæ si adessent, imperitorum & rudium animi non adeo rorquerent, quin etiã ad maiora quærẽda audentiores cupidioresque fierent, Hæc cum prævidissem, licet mihi ipsi nequaquam fideret, inuocato rñ diuini & æterni numinis auxilio, sine quo nihil sane bonũ potest initiũ fortiri, cupidus admodum ignaris pro virili mea prodesse, hunc mihi iocundissimũ laborẽ in aliqua eorum quæ necessaria videbantur parte cõponẽda, liberrissime sumpsi, Necquid ego laudis desiderio illeceat, sed æternitatem boni amore adductus, feci, quauis & eorũ ingens sit numerus, quod aliorũ operibus nonnulla addit, plura adiunxi & corrigi, perpetuis sibi oĩ seculo laudẽ & gloriã cõpararũ, Est enim non mediocri laude dignũ, quæ passim & incõp̃te adeo sparsa sunt, ut exiguis ex his vel summo labore fructus percipi possit, in ordinem eleuans, cõpendiosè & ad cõmunẽ oĩũ vilitatẽ redigere, Verũ ego neque gloriã quærere, neque mihi diuitias cõparare hoc opusculo decreui: absit enim ut huiusmodi iũm meũ serpat ambitio, sed ignaris tantummodo pro meis viribus, fauente oĩpotẽtis gr̃a opitulari volui, quo eis liceat facilius diuina oĩa rite ac perfecte officia celebrare, neque suis imparibus cõcensibus ac parũ modulata voce, & hominũ aures offendat, & ipsi deo fastidio inferat, cũ id quod se ad eius maiestatis honorẽ facere p̃dicant, magna plerumque negligẽtia p̃termittant. Hoc igit præsens opus qualecũque sit, quod Antiphonariũ appellari placuit: eo quãtiphonas cõtineat, sicut alter ab eo libellus, & cũ ipso cõnectendus quẽ superiore anno missas solẽnes cõtinebat sub Gradualis noĩe, cõpilarũ imprimi curauimus, tibi vni Illustrissime & Reuerendissime princeps, tuorumq; noĩ & auspicio in primis dedicare constitui, Tu enim ut video, ceteros ecclesiæ signiferos, & nostri p̃p̃is Apostolos, sanctissima vita circa oẽm cuiusque cõtroversiã antecellis, verũque dei cultũ, et verbo p̃dicas, et opere p̃ficias, Prætereo innumera bilia, a te & iuste & pie facta, in eo quĩ tibi diuina tradidit, p̃uidẽtia, regẽdo et moderãdo imperio, Ita enim in hoc te habet gloria tua, ut nullius fere laudibus crescat, nullius vituperatione minuat, quibus quidẽ ex tebus sit, ut te oĩs veluti numẽ aliquod a summa dei clemẽtia istis felicissimis populis e cœlo demissum fuisse existimẽt, neque vero id in te esse mirandũ est, Scis enĩ quid inter bonũ & malũ principẽ, scis quid inter pastoreẽ et lupũ inter sit, scis postremo quæ tibi & quãtũ cœlo p̃mia sint, p̃posita, si et iustitiã assidue colueris, & scitẽ viues, ceteris mortalibus exẽplo fueris. Benigne igit & hilari vultu nostrũ hunc laborẽ, quicquid sit accipe, cũque ad optimũ finẽ a me & inchoatũ & exactũ fuisse existima, inde me inter ceteros nostræ religionis in finem cliẽtuluũ tuũ toto pectore, licet immerentẽ, suscipe, amplectere, & tuere, Ego enim i tuorum numero esse & cõnumerari ut cũ maxime desidero, Vale egregie optime: Amplissimum Almo & feliciter
